

Guidance: Narrative (RFP 4.2.2.1)

Please upload a narrative statement that satisfies the RFP requirement for:

4.2.2.1 Technical Proposal: Offeror shall provide a written narrative addressing its strategy to execute R&D that supports the specified Technical Work Scope. The documentation provided shall include the items specified below:

- Proposal Title
- Technical Work Scope Identification: From the Technical Work Scope Table, select the technical work scope identification number for the proposed scope of work
- Proposed Scope Description
- Logical path to accomplishing scope including descriptions of tasks
- Milestones and Deliverables
- Type/description of facilities that will be used to execute the scope (NA is acceptable)
- Schedule: Define timelines for executing the specified work scope
- The roles and responsibilities of each partnering organization in the execution of the work scope
- Unique challenges to accomplishing the work and innovations expected to mitigate such challenges
- Information, data, plans, or drawings necessary to explain the details of Offeror's proposal
- Quality Assurance: Describe the applicable QA requirements and how they will be met.

The R&D written narrative shall NOT include:

- Cost and pricing information
- Identification, by individual name or name of institution, any teaming partner.
- Official name or title of facilities used to execute scope. Describe the facility by function and/or technical attributes such as an accelerator, a test reactor, etc.

Please adhere strictly to these document requirements:

- **.PDF Only;**
- Size 11 Arial font minimum;
- Ten single-spaced pages maximum;
- One-inch margins all around minimum.
- Title: 09-ID# Narrative
