

1. Estimate your Audience.

Romon 30 min  
talk  
4/5/13

If general → make understandable.

Examp: instead of schematics on "LT Spice design"  
→ make flow chart

2. Less slides → more time to talk

3. Tell an interesting story

4. Instead of a lot of text → more "cool" pictures

Examp: instead of text in "why..." put  
pictures, like 2-machine.

Some technical details:

1. Better without outline → more time to talk

2. Spell out all abbreviations

3. Check all  $\mu$ ,  $\nu \rightarrow \mu$  etc.

4. Make nice pictures!

5. "and more..." → not good
