

Guidance: Capabilities (See RFP 4.2.3.1)

Infrastructure Requirements: Offeror shall identify the infrastructure (e.g., facilities, equipment, and instrumentation) required to execute the proposed scope of work. Describe the non-labor (e.g., facilities, equipment, and instrumentation) resources available and accessible to the Offeror and are required to execute the scope of work. Describe any unique equipment and facilities that are needed, are accessible, and will be used to execute the scope of work. Discuss the adequacy of these resources and identify any gaps.

Please adhere strictly to these document requirements:

- **.PDF Only;**
- Size 11 font minimum;
- Two single-spaced pages maximum;
- One-inch margins all around minimum.
- Title: 09-ID# Capabilities
